

INTERNATIONAL SECURITY ACADEMY INTERPOL UN together with **INTERPOL CENTER UN**, **ACADEMY UN**, **INTERPA** (INTERNATIONAL ASSOCIATION OF POLICE ACADEMIES), **IACP** (INTERNATIONAL ASSOCIATION OF POLICE CHIEFS) and **OMEGA** (SPECIAL TRAINING CENTRE), combining the world theoretical and practical experience of both public and private educational and special organizations with the sphere of economic and special security, together with the above-mentioned organizations, developed a curriculum of education and additional training "ECONOMIC SECURITY" and "SPECIAL SECURITY."

The purpose of educational programs is to train specialists who implement a systematic approach to solving problems of economic security of the state and business using modern tools and mechanisms to neutralize and prevent threats and risks.

The areas of professional activity in which graduates who have mastered the programs can carry out professional activities are law enforcement; defence and security of the State; ensuring the economic security of the region; ensuring economic security of economic entities; ensuring the security of the financial and credit system; financial monitoring; countering the legalization of proceeds of crime and the financing of terrorism, as well as the special security of public and private facilities and individuals.

The main specialized disciplines of the educational program are

- Economic security as the basis of national security
- Business analysis and access to information
- Business Management Standards
- Comprehensive Business Security Solutions
- Cyber crimes
- IT Security
- Shadow economy, criminal threats
- Information technology security
- Financial component of economic security
- Competitiveness of the organization. Business Intelligence
- Countering industrial espionage
- Special training

During the course of the training, students who successfully master the training program can be sent to additional training and practice in international police structures and partner organizations.

According to the results of successful training and testing, as well as the state final certification, graduates will receive state and international documents and can be sent to work in the structures of INTERPOL CENTER, INTERPOL, UN, OSCE, leading world companies and organizations that are partners.

The received international documents are included in the international ISO system and do not require legalization and certification in countries of the world.
